Mohammed Nauman Malik

Web Developer

I'm a web developer with 6 months of hands-on experience in both front-end and back-end development. I excel at creating user-friendly web interfaces with HTML, CSS, Bootstrap, JavaScript and React.js, while also proficiently handling backend tasks using PHP and MySQL. I'm dedicated to delivering innovative and scalable web solutions that meet modern standards and user expectations.

WORK EXPERIENCE

Web Developer
Incredible Marketeer

06/2023 - Present,   *Madhya Pradesh*
Incredible Marketeer - Specializing in email marketing and digital advertising services.
Role's and responsibilities.

- Frontend Development: I excel in creating user-friendly and responsive frontend experiences using HTML, CSS, Bootstrap, JavaScript and React.js.

- Backend Development: On the backend, I leverage PHP and MySQL to build efficient systems, including database design, server-side scripting, and API development.

- Landing Page Creation: I specialize in crafting captivating landing pages for Incredible Marketeer's advertising campaigns. With over 100 landing pages successfully designed and developed, I have experience working with renowned clients such as IBM, Dell, Cohesity, and many others.

- User Interface Design: I translate design concepts into web interfaces, often using Bootstrap for responsive design to ensure a seamless user experience.

- Cross-Browser Compatibility: Ensuring that websites function seamlessly across various browsers and devices is a priority, making use of Bootstrap for responsive design.

PROJECTS

LANDING PAGE CREATION PROJECTS
In my capacity as a Web Developer at Incredible Marketeer, I am actively involved in the dynamic and ongoing "Daily Landing Page Creation Project." This project entails the daily creation of multiple landing pages tailored to the diverse needs of our clientele.

(06/2023 - Present)
- Role's and responsibilities
- Consistently create multiple landing pages daily for a variety of clients.
- Ensure each landing page is tailored to the client's campaign objectives and branding.
- Optimize landing pages for user engagement, performance, and cross-browser compatibility.
- Collaborate closely with the marketing team to align landing pages with campaign goals.
- Continuously improve landing page performance for better results.

PERSONAL PROJECT
FITHUB FITNESS
(01/2023 - 03/2023)
naumanmalikfithubfitness.netlify.app
Fithub Fitness is a Gym website.
Developed a gym website using React, enabling users to easily access and explore workout information. The website incorporates modular components, responsive design, and interactive features to enhance the user experience. APIs were integrated for real-time data, and efficient form validations were implemented to ensure data integrity.
